Course: JS/FE 2025 Q3

Recommend To Hire

Mark is a highly capable and motivated student. It was clear from his assignments that he wasn't just going through the motions. Mark demonstrated a systematic approach, showing an ability to break down a problem, distinguish between less important and more important matters, and understand the details. During the final (team) assignment, Mark proved himself to be a strong team player. Moreover, he wasn't afraid to tackle challenging assignments and handled them exceptionally well. It was a real pleasure to mentor Mark.
